4 per cent on Savings

Four per cent clear and above all expense is pretty good income on money that is invested with absolutely no risk of loss.
And not only is four per cent good interest but in our savings department you get interest without having large capital invested.
You can make deposits at any time from your savings in any amount, large or small, and when it has been in the bank six months it draws interest. The interest is added to the principle and also begins to draw interest. That's compound interest—the fastest way for money to make money.
Our advertisement in one of the papers this week quoted 5 per cent interest. That was a mistake on the part of the type setters. We pay

M'KINLEY FUNDS LARGEST IN PAST

Republicans Raised Huge Amounts for Campaign of 1896 and 1900.

The following table from the Wall Street Journal lists presidential campaign funds from 1860 to 1916. It will be seen that the highest amount, $16,500,000, was spent for McKinley in 1896. In only three campaigns—1884, 1892 and 1912—did the Democrats spend more than the Republicans. Ttable follows:

Year	Candidate	Campaign Fund
1860	Lincoln	$ 100,000
	Douglas	50,000
1864	Lincoln	125,000
	McClellan	50,000
1868	Grant	150,000
	Seymour	75,000
1872	Grant	250,000
	Greeley	50,000
1876	Hayes	950,000
	Tilden	900,000
1880	Garfield	1,100,000
	Hancock	355,000
1884	Blaine	1,300,000
	Cleveland	1,400,000
1888	Harrison	1,350,000
	Cleveland	855,000
1892	Harrison	1,850,000
	Cleveland	2,350,000
1896	McKinley	16,500,000
	Bryan	675,000
1900	McKinley	9,500,000
	Bryan	425,000
1904	Roosevelt	3,500,000

MISSOURI GETS EARLY START IN FOOT BALL.

Columbia, Mo., Sept. 11.—Although Missouri Valley Conference football rules keep coaches off the field until September 15, the fact that the University of Missouri opens its fall term on September 1 gives the football Tigers a good start at practice. Under the leadership of Captain "Chuck" Lewis, the Missouri Valley champions of last year are putting in some good licks at early season warming-up on Rollins Field.

Missouri's first game is with Missouri Wesleyan College at Columbia on October 2. This means that the Tigers will have a full month's practice before entering their first game. With an additional two weeks before playing their first Conference game with Ames at Ames on October 16, they should be in excellent condition for the struggle to hold the championship.

Most of the men eligible from last year either are in school now or soon will be back. The indications are that John F. Miller, head coach, will have good material with which to prepare for what he expects to be a hard season.

Batteries Are Different

THE MATERIALS used in most storage batteries are the same. Any manufacturer can buy the best materials, they use in the batteries they produce, and most manufacturers do.

MATERIALS alone don't make a battery. The secret of a good battery is in the unseen construction on the inside.

The material used in VESTA batteries can be and is duplicated, but the VESTA patented features and the TWENTY YEARS experience in the battery field cannot be duplicated.

When you buy your next battery make it a VESTA STORAGE BATTERY and you will get the maximum for your money, in SERVICE, GUARANTEE and SATISFACTION.

ANNOUNCING

The First Exclusive Presentation of *Parisian Dress Interpretations*

BY

Crown
REG. U. S. PAT. OFF.
PARIS NEW YORK

Introducing the Parisian Vogue for Fall

THIS *presentation marks a new and great forward stride in the fashion-service of this store to the community. It marks a new recognition of its importance as a fashion-center—as the source of style in the truest sense for those who, because of their social standing, set the standard of dress for the community.*

THIS first presentation of Crown creations, hereafter to be the exclusive privilege of this institution, brings a unique advantage in fashion. It means to the fashionable woman of this community the ability to wear authentic Parisian dress styles at practically the same time as they are first presented in Paris—and with the certainty that they are already adapted to American social requirements and tastes.

The Crown staff of designers—working in Paris, watching carefully every trend of the mode, in closest touch with every move of each creator—is able to anticipate dress fashions, to adapt them to American needs and to send them over with such unequaled speed as to place women anywhere in America on practically an equality in fashion with the style-leaders of the Continent.

This collection presents an absolutely authoritative forecast of French dress fashion for this Fall. It shows the new silhouette, the original decorations, the novel introductions sponsored by France. It includes the smartest fabrics for Autumn, and covers a price-range broad enough to allow of the selection of authentic Parisian creations from the more exclusive to the strikingly moderate in price.

To see this exhibition is an inspiration—and a guide to the selection of every detail of the Fall wardrobe. Will you set aside tomorrow to draw from it every advantage of an advance and authoritative knowledge of what will be worn this Fall?
